

# POLYWASH NP Conc.

**Universal detergent, wetting and de-aerating agent for all textile fibers**

**Properties** : - is an universal scouring agent for the pretreatment process.  
- has a high dispersing effect.  
- is suitable for use in enzymatic desizing.  
- is a good detergent and wet stripping agent for different processes.  
- is suitable for continuous and discontinuous processes.  
- removes dirt, impurities, oil and waxes from fiber surface and suspends it.  
- can be used as an after-washing agent for dyeing and printing processes.

## Field of application

**Substrate** : all textile fibers especially cellulosic and its blends  
**Aggregate** : Jig, Winch beck, beam dyeing, continuous open-width washer, printing  
**Operation** : washing, scouring, dispersing, de-aerating, wetting, after-soaping

## Characteristics

**Type of product** : fatty alcohol polyglycol ether  
**Ionic nature** : non-ionic  
**Appearance** : clear, viscous liquid  
**pH of 1% sol.** : about 7

## Application

**Dissolving method** : easily dissolved in hot water.  
**Guide recipes** : 2.0 – 5.0 ml/l **POLYWASH NP Conc.**  
**Storage stability** : 12 months
